PERSONAL PROJECTS

Go-Grocery (07/2023 - 08/2023)

- In the context of a straightforward grocery website, users have the convenience of inputting the quantity of items they've selected during their in-store shopping trip. What sets this platform apart is its emphasis on immediacy, as users can seamlessly execute real-time payments for their grocery purchases.

Weather App (07/2023 - 08/2023)

- In this webpage you can access up-to-the-minute weather updates and comprehensive weather-related statistics. We've designed our platform to offer you an enhanced weather forecasting experience.

Portfolio App (08/2023 - 09/2023)

- Basic Portfolio app
